Art. 1.- ORGANISATION

1.1. ANNOUNCEMENT

Club RallyClassics will organise a Regularity Rally: the **XVII Rally Costa Brava Històric** to be run from **Thursday 23th to Sunday 26th April 2020**.

The event will be run with the “Servei Català de Trànsit” authorisation, in accordance with the Circulation Code, and with these Supplementary Regulations and their Bulletins.

1.2. EUROPEAN REGULARITY TROPHY

The XVII Rally Costa Brava Historic is a qualifying event (*) for the **FIA TROPHY HISTORIC REGULARITY RALLIES 2020** (*, to be confirmed at the FIA World Council).

1.3. REGULARITY

The competitors must respect the average speeds imposed by the organisers (up to 50 km/h), and will be penalised for either early or late arrival at secret controls, measured to the tenth of second. The team that accumulates the fewest penalties (either by early or late arrival) will be proclaimed the winner. The measurement will be done by electronic timing devices and stewards.

1.4. ORGANISATION TEAM

Rally Director: Tere Armadans Vidal
Chief of Results: Ramon Garcia
Event Secretary: Anna Ferrer Pons
Chief of Route: Jordi Parro Vidal
Competitor Relations Officers: Lluís Pallí

Art. 2.- VEHICLE ELIGIBILITY

The cars will be allowed to participate in the following FIA Categories:

Category E: Cars manufactured between 1st January 1947 and 31st December 1961.

Category F: Cars manufactured between 1st January 1962 and 31st December 1965.

Category G: Cars manufactured between 1st January 1966 and 31st December 1971.

Category H: Cars manufactured between 1st January 1972 and 31st December 1976.

Category I: Cars manufactured between 1st January 1977 and 31st December 1981.

Category J1: Cars manufactured between 1st January 1982 and 31st December 1985

Category J2: Cars manufactured between 1st January 1986 and 31st December 1990

Category K. Cars manufactured between 31 st January 1991 and 28th April 1995 (*).

And also:

Category M: Motorcycles manufactured prior to 26th April 1995

Category Prestige GT: (LPRS). Other historical interesting cars

(*) Categories K and Prestige GT can participate and win the class trophies, but they will not have option to win the Rally general classification Trophies.

All Vehicles are required to meet all road traffic regulations for their use on public roads, and the driver must hold a valid driving licence. Before the event Signing On will take place, during which competitors must provide proof of: Vehicle Registration Document, Insurance Certificate for normal road use, and Driving Licence.

On Friday 24th April scrutineering will take place at the Parc Ferme entrance (or optional on Thursday 23th afternoon at Sant Antoni de Calonge). This scrutineering will include, but not be limited to, tyres, warning triangles (2), safety vests (2), extra lights, other equipment required for driving on the public road, and the correct positioning of rally numbers and event sponsor decals.

The transponders will be placed on the car: each team shall deposit a 50€, that will recover once the transponder is returned to the organization.

Art. 3.- ENTRIES

Participants for the XVII Rally Costa Brava Historic will be selected by the organizers from the entry requests that have been correctly received and paid in full. The event is limited to **120 entrants**. Rally numbers, and starting order for Leg 1, will be appointed in the following order: VIPS, age of the vehicles, entry fees payment date. The start order will be maintained throughout Leg 1 -Prologue-. In Legs 2 and 3, the order will be done with a partial classification of the previous Leg, with exceptions at the discretion of the organization.

The organizing committee reserves the right to reject any entry, refunding any entry fee paid. If the event is oversubscribed the organizing committee may allocate reserve entries.

Art. 4.- COMPETITOR ELIGIBILITY, INSURANCE

Eligible participants:

Drivers possessing a valid driving licence appropriate for their vehicle, and valid for driving on Spanish territory. Navigators over 18 years old, or between 14 and 18 years old provided parental consent is given in writing.

Only the registered crew will be allowed to occupy the vehicle (driver and navigator). The participants must at all times obey the Highway Code, as well as any instructions given by the members of the organizing team. Failure to comply will result in exclusion from the event.

In addition to the obligatory normal road insurance that each driver must possess, the organizers will provide supplementary insurance cover against third party losses that could occur as a result of the competition, with a limit of € 600.000.

Both driver and navigator must contract an insurance, through the organizer, if don't have any FIA License.

Art. 5.- RESPONSIBILITIES OF COMPETITORS

5.1 By entering this event, participants will uphold their own civil responsibility to third parties, and agree to save harmless and indemnify the organisation against any responsibility derived from the use of their own vehicle, property or bodily damages of those who might be victims or authors, for the mere fact of registering in this event.

5.2 The participants must be conscious that any problem during the rally must be solved by themselves (breakdowns, losses in the itinerary, accidents, punctures, running out of petrol, etc.). It is recommended that competitors equip themselves with maps, mobile telephones, documentations, cold weather clothing, information of petrol stations, etc.

5.3 The management of alternative routes or retirement is the responsibility of the participating crew.

5.4 The organisation can include in some stages an organisation car that will pass after the entry field to confirm the situation of any retired entrants (especially in zones without mobile phone coverage).

Additionally the organisation will be able to include a car with the exclusive function of transmission of messages and, if it is viable, to solve contingencies.

5.5 If in a regularity or link section, the organisation finds a vehicle with neither member of the team present, the entrant will be considered retired and that it does not require any kind of assistance.

5.6 *Entrants are reminded that it is obligatory to communicate their retirement or their intention of continuing in the rally after not attempting any one of the regularity sections, calling to the emergency telephone number S.O.S. 0034 669 005 335 (art.6.6.5).*

5.7 In the Parc Ferme, which will be open to the public, the organizers will not be responsible for objects in the vehicle, nor for the vehicles themselves; competitors will be responsible for securing their vehicle, and to remove any objects of value from the interior.

5.8 Once the vehicle is in the Parc Fermé, it won't be possible to take it out till the following leg individual start time. Only an authorisation from the Clerk of the Course could be given, through the Competitors Relations Officer. Crews located in the hotels outside of Paseo Marítimo, will be able to take their cars with the proviso of returning 30 minutes before their next departure time. The organisers will do a special card to drive out a car from the Parc Ferme. This card must be shown by the crew to drive out their rally car from the Parc Ferme.

5.9 It is totally forbidden to use "LED" lights and xenon, except for motorcycles.

Art. 6.- EVENT FORMAT

6.1. DESCRIPTION

6.1.1 The rally will consist of 3 legs (Thursday 1st Leg Prologue; Friday 2nd leg; and Saturday 3rd leg), with a total route of approx. 1,000km of which approx. 500km will be regularity sections.

6.1.2 The route of leg 1 Prologue will remain secret until April 23th at 19h00, but the road-book will be handed out 15' prior the individual starting time. The 2nd Leg roadbook will be given the April 24th, at 13h00 in the Rally HQ, Hotel Trias. Leg 3 will remain secret until the end of leg 2. The entire route is covered by Michelin Map 147, zoom Esc. 1.150.000, "Costa Brava, Barcelona y alrededores".

6.1.3 Crews will start at intervals of 1 minute.

6.1.4 Exceeding by 30% the average imposed between two secret controls inside a section of regularity will entail a penalty of 50 points, and recidivism will cause a penalty up to the exclusion.

6.1.5 Motorcycles teams must be formed by two motorbikes, which will come out in pairs, accounting for all controls the second motorcycle.

6.1.6 Official rally time will be displayed at the Start Podium.

6.1.7 During 1st Leg – Prologue the starting order will be competition numbers. The starting order of the 2nd Leg will be based on the result of the 1st Prologue Leg. The starting order of the 3rd Leg will be based on the partial classification after the 2nd Leg, with changes at the discretion of the organizer. The Motorcycles (Class M) will start on the classification order between the cars, except for the first Leg, in which they will start in front. The starting order could be modified at the discretion of the organizer.

6.2. CONTROLS

A certain number of controls (schedules, secrets and passing) make it possible to ensure that the teams have followed the proposed itinerary well and determine the penalties to be imposed. These controls will be dismantled 15 minutes after the scheduled time for the last vehicle.

It is imperative to cover the entire itinerary, at the time fixed in the road book, at an average speed of less than 50 km / hour

6.3. CALIBRATION ROUTE

A calibration route of between 5 and 10 Km. will be published a few days prior to the event on www.rallyclassics.org.

6.4. TIME CONTROLS

6.4.1 At these controls a marshal will record the time of passage of each competitor on his record sheet. This record will be indisputable.

If a competitor arrives late, the marshal will record **the new arrival time**, from which the competitor must recalculate their scheduled time for the rest of the leg.

6.4.2 Each competitor should enter the control (pass the control board) within their scheduled arrival minute (e.g. if their scheduled arrival time is 16h34, the competitor may enter during the 60 seconds between 16h34'00" and 16h34'59"; if their scheduled arrival time is 19h15'30", the competitor may enter between 19h15'30" and 19h16'29").

6.4.3 At Time Controls there are penalties for early arrival (10 points per half-minute or fraction) and late arrival (5 points per minute or fraction). At the end of a leg, only late arrival will take penalty of 5 points per minute or fraction.

6.4.4 Late arrival of more than 15 minutes at any Time Control will incur a penalty of 75 points.

6.4.5 If **20% or more of the competitors receive lateness penalties at any one Time Control**, all penalties incurred at this control will be **cancelled** automatically.

6.5. REGULARITY FREE SELF-START (MONTE-CARLO STYLE)

6.5.1 At the regularity stages start, there will be no Time Control. Teams won't have previously any start time on the regularity stages, so they can make a self-start when they are ready. A Marshal will take note of the exact start time of each crew.

6.5.2 At each Leg start, all the teams will receive a Time Card, with the time allowed between two time controls. Between these TC, there may be one or several regularities, with free Self-Start.

6.6. REGULARITY SECTIONS

6.6.1 Competitors must absolutely respect road traffic regulations. To this end Driving Standards Observers will be in force and, as “Judges of Fact”, can enforce immediate exclusion “in situ”. Sections of regularity passing through villages will be especially observed. Failure to extinguish high beam and/or spot lamps when meeting oncoming traffic is also grounds for immediate exclusion. In the interests of the future running of the rally it is **VERY IMPORTANT** that crews demonstrate good road manners at all times, particularly in respect to the use of lights, including spot-lamps, excessive noise and excessive speed. It is critical that historic rally crews portray a responsible attitude at all times – the future of the rally depends on it.

6.6.2 It is completely forbidden for supporting vehicles (team, friends, etc) to enter the Regularity Sections, under pain of immediate exclusion and a ban on entering any event organised by Rallyclassics.

6.6.3 The Secret Controls located in the Regularity Sections will record the time of passage to the accuracy of one second (when controlled by stewards) or the tenth of second (when controlled by transponders). The penalties will be one point per second, and one tenth of point per tenth of a second, early or late.

6.6.4 No Secret Controls will be positioned within 2km after leaving any town/village, to allow competitors time to regain any time lost by respecting road traffic regulations in those locations.

6.6.5 Any competitor that does not attempt a Regularity Section will be allowed to continue in the event providing that they contact, **within one hour of their scheduled start time for the section**, the S.O.S. number **(0034) 669 005 335**, in which case they will incur a penalty of 100 points for each Secret Control missed. Failure to make contact within this hour will incur a penalty to be decided by the Stewards, up to and including exclusion.

6.6.6 Secret Controls will close 15 minutes after the scheduled time of the last competitor, unless otherwise indicated by the Rally Director.

6.6.7 It is completely forbidden for competitors to stop within a Regularity Section, except on grounds of vehicle breakdown force majeure; also it is forbidden to drive any part of a Regularity Section in the opposite direction to that indicated in the Road Book.

6.6.9 The maximum penalty applied at a secret control (before closing) will be 50 points. Failure to pass the above mentioned controls will incur a penalty of 100 points.

6.6.10 “Secret control Joker”: in each section, the worst score for delay in a secret control of each participant, will be discarded for the classification, except in specific Secret Controls (pre-defined and kept in a closed envelope in the hands of the FIA observer) where the Joker will not apply.

6.7. PASSAGE CONTROLS

Passage controls will be indicated by a control board. Failure to obtain proof of passage at these controls will incur a penalty of 100 points.

6.8. SUPPORT CREWS AND FUEL HALTS

In the spirit of reducing costs the rally has been designed so that it is possible to compete without a support crew. During the itinerary there will be fuel halts, indicated in the Road Book, some of them opening specifically for the event, which will remove the necessity for support. Vehicles will need to be able to cover 250km between fuel halts.

Additional Attendance Points will be provided for motorcycles, and therefore they will need to be able to cover only 150km between halts.

Given the large anticipated number of competitors, the narrowness of the roads, and the limited space at regrouping points, **it is completely forbidden to receive service support outside of the zones explicitly authorized by the organizers.**

The authorized service zones will be indicated on April 20th, at 19h00. The only place where competitors can receive external aid will be in these service zones. It is forbidden for pursuit vehicles to enter the Regularity Sections.

In order to preserve the spirit of the secret checks in the Regularity Sections, it is specifically forbidden to use 'management, chase or any method to locate secret controls' cars. Any crew found to be benefiting from information about the location of secret controls, or to be using detectors of any type will be excluded from the event, and will be banned from entering any further event organized by RallyClassics.

6.9. TIMEKEEPING

6.9.1 INTERRUPTION OF A STAGE

If, for reasons beyond the control of the organizer, a Regularity Section cannot be attempted by some crews, the Stewards can give the penalties to the 9 best crews, and then the 10th lowest penalty (maximum) to the rest of the crews.

6.9.2 TIME ADJUDGED BY STEWARDS

If, for whatever reason, the time of a crew cannot be taken, the Stewards will decide the fairest time to be given to the crew. This decision will be final and it will not be possible to protest it.

6.9.3 MANIPULATION OF THE TRANSPONDER

Any manipulation in the transponder or in its working will be penalized with an exclusion, and ban on entering any further events organized by RallyClassics.

6.9.4 NAVIGATION CATEGORY

Participants in this category will not have timekeeping service, nor therefore classifications. The Organizer may dispose controls, if appropriate, to control the crews.

6.10. TROPHIES

The **FIA TROPHY**: to qualify for the FIA TROPHY, vehicle must comply with Article 4.3 of the Standard Supplementary Regulations for the FIA Trophy for Historic Regularity Rallies.

The **Gentleman Classic Trophy** will be a classification between the teams using classic measuring systems, either mechanical measuring systems or only indicating distances (no averages or measures of time), as Halda, Retro trip, simple Branz. Drivers who sign up for wish to fall into this section, declare, under oath of honour, "Only use measuring equipment mechanics or those they can only show distances". GPS, computers, Smartphone, etc are not allowed in this category.

And to promote the values of teamwork, the **Team Trophy** (Trofeo Escuderías) has been created, to be awarded to the team with the three highest placed members. Once a team entry has been made, the entrant or team can't be modified.

The "**Papi Babler Trophy**" will be awarded to the highest place crew whose combined age is 110 or more.

The "**Junior Trophy**" will be awarded to the highest place crew whose combined age is maximum 60.

The "**Fathers & Sons Trophy**" will be given to the best of those crews whose members are from the same family, but from different generations.

The "**Ladies Award**" will be given to the best crews whose members are female.

The "**Rally & Party Trophy**" will reward the best ranked among the teams registered in this category. This trophy will not contest some sections of the rally, preferably at night or worse roads. This trophy is designed for those crews, who prefer not to make some sections to, for example: preserve a very delicate vehicle, limit the number of night hours, enjoy the gastronomy of the area, etc.

6.11. RESULTS

The winning crew will be the one that accrues the least penalty points, being the combined penalties incurred during regularities (applying, in each case, the relevant handicap) and at Time Controls and Passage Controls. After publication of the provisional results there will be a period of 30 minutes for protests (to be given in writing with a deposit of € 300) after which the results will be declared final.

6.12 AWARDS.
A pair of trophies will be awarded to the first three crews classified in the following categories:

General Classification

The Gentleman Classic Trophy

Each of the vehicle age categories

FIA TROPHY

2 "Papi Babler" Trophys for the highest placed crew whose combined age is 110 or more
